1.1. General Provisions

1.2. Purpose and scope of MPEP

The main professional educational programme (MPEP) of the master's program implemented by Federal State Budgetary Educational Establishment of Higher Education (FSBEE HE) "Altai State University" in the field of study 38.04.02 Management, "International management" profile, is a system of documents developed and approved according to the labor market requirements on the basis of the Federal state educational standard of higher education, in the field of study 38.04.02 "Management", approved by the order of the Ministry of Education and Science of the Russian Federation dated 30.03.2015 №322.

The main professional educational programme specifies the goals, expected results, content, conditions and technologies for implementing the educational process, assessing the quality of graduate training in this area of training and includes: the curriculum, calendar curriculum, work programmes of disciplines (modules), practice programmes, assessment tools, teaching materials.

The main goal of the educational programme 38.04.02 Management, "International Management" profile as a whole, is to obtain an education that allows the graduate to successfully work in a certain field of activity, the formation of general cultural, general professional and professional competencies, the development of skills for their implementation in practical activities, in accordance with the requirements of Federal State Education Standard of the Higher Education (FSSES HE), contributing to its relevance in the labor market.

Educational activities in this field of training are carried out in the foreign language (English).

The programme has been designed and developed as part of ASU agreements with partner universities abroad. The programme participants also have the opportunity of free internships in management at a foreign university.

The duration of part-time study for receiving education under the programme, including holidays provided after passing the state final certification, regardless of the used educational technologies, is two years and six months.

The labor intensity of students mastering the MPEP HE in the field of study 38.04.02 Management, "International Management" profile, for the entire period of training in accordance with the FSSES HE is 120 credits and includes all types of contact and independent work of a student, as well as practice, research and time allocated to the quality control of MPEP mastering by a student.

The educational programme is developed in the form of a set of documents, which is updated annually taking into account the development of science, culture, economics, engineering, technology and the social sphere, and the needs of the labor market.

Based on the needs of the labor market, research, material and technical resources of the organization MPEP is implemented on the basis of the modular principle of
